

## HUERTA ARMY HELD PRISONERS BY U. S.

DRIVEN OVER BOUNDARY LINE, 3,300 ARE SENT TO UNITED STATES FORT.

## 1,500 CIVILIANS ARE REFUGEES

War Secretary Decides There Will Be End to Custom of Letting Men Go Back After Battle—Women and Children Can Go If They Wish.

Washington, Jan. 13.—All of the Mexican federal soldiers now in the custody of the United States border patrol forces at Presidio, Texas, will be transferred to Fort Bliss and interned there indefinitely. Secretary Garrison ordered the transfer late today with permission for the refugee women and children to accompany the soldiers if they desire.

There are about 3,300 of the Mexican officers and men who fled across the Rio Grande when the victorious constitutionalists entered Ojinaga, and with them, besides many women and children, are some 1,500 civilian refugees. The latter are not prisoners, and will be allowed to do as they please by the military authorities. Those desiring to remain in American territory will have to satisfy the immigration officers.

With Presidio sixty miles from the nearest railroad, it will be quite an undertaking to get the army of prisoners to their haven. Brigadier General Bliss, commanding the border forces, will march his unhung visitors northward to Marfa and there put them aboard trains for Fort Bliss near El Paso. The thousand or more horses brought over by the Mexicans probably will be used on the journey of five or six days, as there will have to be wagon trains for the sick and wounded, the women and children, and the baggage.

Secretary Garrison determined to hold the refugees after an hour's consultation with Counsellor Moore, of the state department, Major General Leonard Wood, chief of staff, and Brigadier General Crowder, judge advocate general of the army. His action is in continuation of the policy adopted months ago by the war department in disposing of the federalists who crossed into Arizona from Sonora and into Brownsville from Matamoros, Tamulipas.

Some of the constitutionalist soldiers who were driven across the line at other places, though disarmed by United States troops, were allowed subsequently to filter back when the coast was clear. For the present, however, there will be no more "filtering back." Secretary Garrison announced, either of federalists or constitutionalists.

The secretary decided the women and children who accompanied the soldiers into Texas should be allowed to remain with them in the detention camp if they care to do so, and that in any case their immediate wants in the matter of food and shelter should be provided for by the army.

It was expressly stated that this policy is for the moment intended to meet an emergency and might be changed at any time in the future. At present the United States will pay for the keep of these Mexican soldiers and their adherents, but later the Mexican government will be called upon for reimbursement.

## BLAST BLOWS HIM 30 FEET.

Kansas Farmer's Head Split by Premature Explosion.

Winfield, Kan., Jan. 13.—Venne Jones, a farmer, is seriously if not fatally injured as a result of a premature explosion of dynamite today, while he was blowing out stumps. He was working alone and when found was 30 feet from the scene of the explosion with his head split open from the base of the nose to the center of the top of his head.

## Woman Chief Comes Back.

Trinidad, Colo., Jan. 13.—"Mother" Mary Jones, strike leader deported from the Southern Colorado coal fields January 4 by the military authorities, returned to Trinidad secretly last night and registered at a hotel today. General John Chase, who ordered her deported a week ago, declared at the time that Mother Jones would be arrested and held incommunicado if she returned. She had not been arrested at 11 o'clock today although her presence was known to the military authorities.

## ALBERTA CROP YIELDS

At MacLeod, Alta., weather conditions were excellent all through the season. Ninety per cent. of the wheat up to Oct. 1st graded No. 1, the only No. 2 being fall wheat. The yield ranged from 20 to 40 bushels per acre, with an average of 28. Oats yielded well, and barley about 60 bushels.

Inverary is a new district in Alberta. Here wheat graded No. 2 and some of it went 50 bushels to the acre, oats going about 75 bushels.

Lethbridge correspondent says: "In the Monarch district the yield on summer fallow is averaging thirty-five bushels, a large percentage No. 1 northern."

"All spring grains are yielding better than expected in the Milk river district, south. A 300 acre field of Marquis wheat gave 41½ bushels.

"Experimental farm results on grain sown on irrigated land place 'Red Fife' wheat in the banner position, with a yield of 59.40 bushels per acre. Oats yielded 132 bushels to the acre.

"John Turner of Lethbridge grew barley that went 60 bushels to the acre.

"Red Fife averages in weight from 60 to 68 pounds, and at Rosthern the Marquis wheat will run as high as 64 pounds to the bushel, while a sample of Marquis wheat at Arcola weighed no less than 68 pounds to the bushel. This variety is grading No. 1 hard."

Calgary, Alta., Oct. 8.—The problem of handling Alberta's big grain crop is becoming a serious one, and there is a congestion at many points in southern Alberta. One thousand cars could be used immediately. The C. P. R. prepared for a normal year, while the yield of grain was everywhere abnormal, with an increased acreage of about 23 per cent.

Moose Jaw, Sask., returns show some remarkable yields.

Bassano, Alta., Sept. 25, '13.—Individual record crops grown in Alberta include 1,300 acre field of spring wheat grown near Bassano which went thirty-five bushels to the acre and weighed sixty-six pounds to the bushel.

Noble, Alta., Oct. 1, '13.—All records for the largest shipment of grain by one farmer will be broken this year if the estimate of C. S. Noble of Noble, Alberta, proves correct. Mr. Noble has notified the Canadian Pacific Railway here that he will have 350,000 bushels of grain, chiefly barley and oats, ready for shipment very shortly.

L. Anderson Smith, writing to a friend in the Old Country, located at Killam, Alberta, says:

"Anyone taking up land will find Alberta an ideal province. The soil is a rich black loam, varying from 6 to 12 inches in depth. The land here in this district is not wholly open prairie. At intervals, sometimes closely, sometimes widely scattered, there are small plots of poplar and willows. These generally grow round some small depression in the land, and the snow drifts here in the winter and melts in the spring filling these sloughs (province 'slews') with soft water. Nearly all these sloughs have old buffalo tracks to them, for it was from them that they always got their water. The poplars are very useful for building barns and hen-houses. Wild grasses are plentiful, while tame grasses, such as timothy, brome and western rye grass do remarkably well."

## Serum Cuts Down Mortality.

In Paris from 1880 to 1893, before the discovery of the anti-diphtheria serum, diphtheria killed an average of 1,721 persons a year, 2,244 deaths in 1882 and 1,268 in 1890 being the maximum. After Roux discovered his serum, the average of deaths dropped to 348, with a maximum of 736 in 1901 and a minimum of 174 in 1906. Thus, thanks to serotherapy, there is now only one death instead of five, and in some years one instead of seven, or a mortality of six per 100,000 inhabitants.

In 1895, soon after the serum came into use in Paris, the mortality fell to 9.7 per 100,000, while in London it was 55.6; in Berlin, 60.1, and in St. Petersburg, 89.3.

## TOBACCO CURE FREE

Do you wish to quit cigarettes, cigars, pipe, chewing or snuff? Write THE TOBACCO CLEANSE COMPANY, WICHITA, KANSAS, and receive bottle of Tobacco Cleanse by return mail. Preparation very simple to use, acts on nerves at point where tobacco enters system. Will not injure or form habit. Endorsed by scientists, guaranteed by manufacturer, under U. S. Pure Food Law. Will remove taste for tobacco in any form or your money refunded. Enclose \$50 to pay postage, bottle and packing. Adv.

## Natural One.

"They told me I could find a game center here."

"So you can. Here's my pointer's nose."

However, the 1914 water wagon will not be an alcohol auto truck.

## POOR HAND AT GEOGRAPHY

Tramp's Comment Worth the Dinner It Cost New York Philosopher and Author to Hear It.

He was a poor, bedraggled, "down-and-out," working Sixth avenue. In the course of his efforts he encountered John P. Wilson, soldier of fortune, actor, philosopher, scribbler, poet and author of the book of "America" at the New York hippodrome.

"What's the matter with you?" demanded Wilson, as he allowed himself to be "panhandled" for a dime.

"Oh, I guess I'm up against it because I never went west, where the money is," responded the unfortunate. "It's a fact, I never was 20 miles away from Fourteenth street and Broadway in my life."

"Well, you don't see any money hanging on me, and I lived 3,000 miles west of there all my days," retorted the author-actor good naturedly.

"Three thousand miles!" gasped the tramp. "Three thousand miles! Why, how are things in Australia?"

And Wilson thought it good enough to dash to the nearest cafe to tell to the loungers.

## "The Devil to Pay."

The expression, "The devil to pay and no pitch hot," had its origin in the ship yard. When calking the seams of the deck it was important that the oakum in those seams should be kept dry. This was done by "paying," or in other words filling the seams with hot pitch, which was done with a long-handled mop made especially for that use. If a sudden shower should come up and wet the oakum before the seam was "payed" or filled with pitch, the fresh water would rot the oakum and there would be "the devil to pay."

# Women Everywhere

## Praise Lydia E. Pinkham's Vegetable Compound

Women from the Atlantic to the Pacific, from all sections of this great country, no city so large, no village so small but that some woman has written words of thanks for health restored by Lydia E. Pinkham's Vegetable Compound. No woman who is suffering from the ills peculiar to her sex should rest until she has given this famous remedy a trial. Is it not reasonable to believe that what it did for these women it will do for any sick woman?

## Wonderful Case of Mrs. Stephenson, on the Pacific Coast.

INDEPENDENCE, OREGON.—"I was sick with what four doctors called Nervous Prostration, was treated by them for several years, would be better for a while then back in the old way again. I had palpitation of the heart very bad, fainting spells, and was so nervous that a spoon dropping to the floor would nearly kill me, could not lift the lightest weight without making me sick; in fact was about as sick and miserable as a person could be. I saw your medicines advertised and thought I would try them, and am so thankful I did for they helped me at once. I took about a dozen bottles of Lydia E. Pinkham's Vegetable Compound and also used the Sanative Wash. Since then I have used them whenever I felt sick. Your remedies are the only doctor I employ. You are at liberty to publish this letter."—Mrs. W. STEPHENSON, Independence, Oregon.

## A Grateful Atlantic Coast Woman.

HODGDON, ME.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HATWARD SOWERS, Hodgdon, Maine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

"If effect is like cause—"

"Well?"

"Why are there so many hard words over soft coal?"

# Good Bowels Are An Aid to Growth

Growing Children Need a Mild Laxative to Foster Regular Bowel Movement.

As a child grows older it requires more and more personal attention from the mother, and as the functions of the bowels are of the utmost importance to health, great attention should be paid to them.

Diet is of great importance, and the mother should watch the effect of certain foods. A food will constipate one and not another, and so we have a healthy food like eggs causing biliousness to thousands, and a wholesome fruit like bananas constipating many. It is also to be considered that the child is growing, and great changes are taking place in the young man or young woman. The system has not yet settled itself to its later routine.

A very valuable remedy at this stage, and one which every growing boy and girl should be given often or occasionally, according to the individual circumstances, is Dr. Caldwell's Syrup Pepsin. This is a laxative and tonic combined, so mild that it is given to little babies, and yet equally effective in the most robust constitution. At the first sign of a tendency to constipation give a small dose of Syrup Pepsin at night on retiring, and prompt action will follow in the morning. It not only acts on the stomach and bowels but its tonic properties build up and strengthen the system generally, which is an opinion shared by Mr. John Dey of Bloomfield, N. J. He has a large family and at ages where the growth and development

MARIE DEY

must be watched. Little Marie has thrived especially well on Dr. Caldwell's Syrup Pepsin. Mr. Dey considers it the right laxative for young and old and has found none better for young children.

The use of Dr. Caldwell's Syrup Pepsin will teach you to avoid cathartics, salts and pills, as they are too harsh for the majority and their effect is only temporary. Syrup Pepsin brings permanent results, and it can be conveniently obtained of any nearby druggist at fifty cents and one dollar a bottle. Results are always guaranteed or money will be refunded.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 203 Washington St., Monticello, Ill. A postal card with your name and address on it will do.
